

Floor Cleaner

WATER BASED CLEANING SOLUTION

Mirachem® Floor Cleaner offers superior performance and value. Its solvent-free formula is highly effective and versatile, suitable for both manual and automated floor cleaning. Ideal for routine maintenance and heavy-duty projects, it ensures prolonged product life and cost-saving reuse.

Features / Benefits

- Designed to be recycled using Crystal Clean's Aqua Filtration System (AFS) for mop water recycling stations.
- No VOC; meets stringent environmental regulations for air quality, such as VOHAPS, and wastewater systems, including Total Toxic Organics (TTO).
- Industrial formula, easily diluted with water for mop and bucket and automated floor scrubber use for large or small facilities.
- Ultra concentrated to use less packaging, reduce shipping expense, minimize storage space and reduce carbon footprint.

Target Soils

- Grease / Oil
- Lubricants / Fuels
- Hydraulic fluid
- Dirt & Grime
- Extruding Oils / Cutting Fluids
- Coolant

Available in:

- 5gal, 55gal, and 275gal

Specifications

- Color: Light Yellow
- Odor: Light Detergent
- pH Concentrate: 10.5 - 11.4
- pH Use Dilution: 10.0 - 10.9
- VOC: 0 grams/Liter
- Recommended Concentration: 1-7%
- Shelf Life: Min. 24 months if unopened

Material Compatibility

- Sealed & Unsealed Concrete
- Diamond Plate
- Epoxy Finishes
- Tile, Vinyl, Linoleum
- Painted Surfaces
- Polymerized Surfaces

About Crystal Clean

Crystal Clean is a national leader in the environmental services market, providing the smart alternative. Founded in 1999 by a team of seasoned industry professionals, Crystal Clean operates a nationwide network of branches serving the continental United States. Crystal Clean operates more than 100 branches and industrial services facilities across the nation and multiple waste recovery centers, including an oil re-refinery, regional antifreeze recovery centers, and several wastewater treatment facilities. Whenever possible, Crystal Clean disposes of waste it collects in an environmentally sustainable way, recycling waste for reuse or disposing of in a waste-to-energy process.
